

**Steve Gibson**  
Certified Annuity Specialist

As a certified annuity specialist, Steve helps our team with case design to put together the best financial plans for our clients. With hundreds of products on the market it is extremely important to have top notch competitive intelligence research. His knowledge is industry-wide so whether it's finding the highest guaranteed income for life, top uncapped growth strategies, extra long-term care protection, or tax-free legacy planning, Steve will always find the best solutions to fit the clients' needs.

We are not captive, meaning we are not affiliated with only one insurance company, so this gives Steve the ability to shop around from over 30+ carriers. His expertise has helped thousands of pre-retirees and retirees to keep their hard-earned money safe and protected from the volatility of the market.

When Steve isn't working he enjoys snowboarding the fresh powder in the mountains, hiking with his dogs, ATViing in the back country, and spending time with his family.
